### Leak Repair Information:

6. Date Leak Discovered: \_\_\_\_\_ Date Leak Repaired: \_\_\_\_\_
7. Description of Leak: \_\_\_\_\_  
 \_\_\_\_\_  
 \_\_\_\_\_

### **Please Note:**

It is the company's practice to consider an adjustment to a customer's account when a leak has occurred on the customer's property. After you submit a bill from a plumber or other evidence (receipts) that the leak has been repaired, Washington Water will calculate the amount of the credit adjustment as listed below and the credit will be placed on your account:

- The credit will be for one month's usage only.
- Consumption for the current month will be compared with consumption from the same period, prior year and the difference will be adjusted. If no prior consumption history is available then the company average bill\consumption per household will be used as the prior year usage.
- The utility will calculate adjustment value at 50% of usage times usage rates in Schedule 2.
- The leak adjustment is only available to a customer once every twenty-four calendar months (2 years).

I have read, understand and agree to the leak adjustment guidelines:
